Step 1: In **Certify Mobile**, capture a receipt image, and then click the **AutoFill** button.

Submitting Receipts and Expenses

The screenshot shows the 'Enter Expense' screen in the Certify mobile app. At the top, there's a status bar with 'T-Mobile', signal strength, time '1:29 PM', and battery '97%'. Below the status bar is a blue header with 'Cancel' and 'Save' buttons, and the 'certify' logo. The main title is 'Enter Expense'. Under 'Receipt', there's a photo of a receipt and an 'AutoFill' button. Below the receipt, there are input fields for 'Date' (Oct 1, 2018), 'Department' (Administration), 'Category' (Airfare), 'Amount' (0.00), 'Carrier', 'From', 'To', and 'Reason'. When **Autofill** detects a **Tip** or **Gratuuity** line on the receipt image, the **Amount** field will populate with a yellow background and the **Tip Assist** screen will pop up.

Step 2: Add the tip amount in three different ways:

- Enter the amount directly in the **+Tip** amount field.

Tips and Tricks for using AutoFill

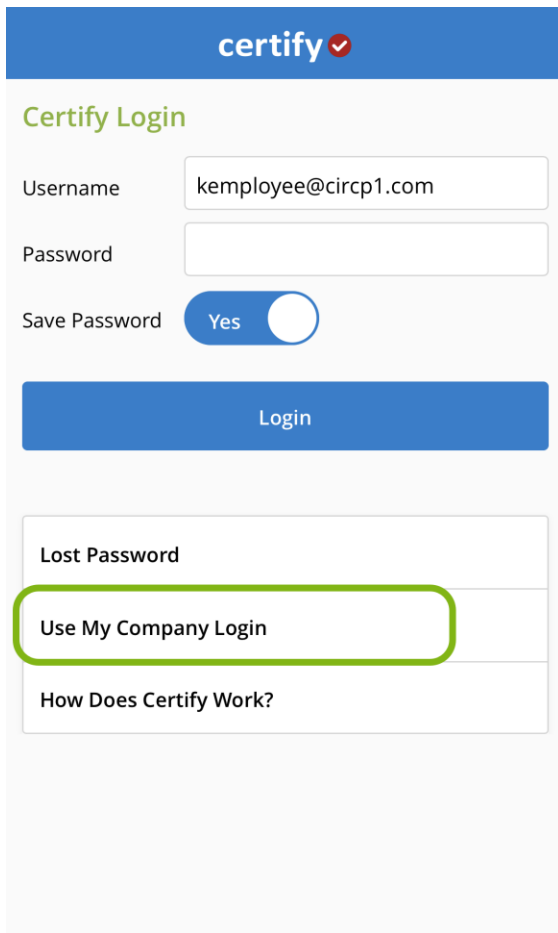

- Take photos of receipts under good lighting conditions
- Make sure the text in the photo is clearly focused
- Hold the camera close enough to the receipt so as to fill the screen with the receipt text – this may be from 6 to 12 inches depending on the size of the receipt you are photographing
- Do not circle amounts or write on receipts
- Take a picture of the physical receipt, instead of, for example, taking a photo of your computer screen
- Use a strong, steady data or Wi-Fi connection
- ReceiptParse cannot read handwritten receipts; tip amounts will need to manually adjusted

Certify Mobile Single Sign-On

Some companies have enabled **Certify Single Sign-On** for their users. Single sign-on allows users to maintain one username and password for access to the company's applications, business tools, communication resources, etc. Certify has extended the single sign-on feature to our mobile app, Certify Mobile. This article shows you how to configure single sign-on on Certify Mobile.

Reviewing Receipts and Expenses in Your Certify Wallet

The **Certify Wallet** is where all captured receipts and imported credit card expenses are stored before they are added to an expense report. This article shows you how to review the items in your **Certify Wallet**.

On your account homepage, select **More Items** under **My Certify Wallet**.

The screenshot displays the Certify Wallet interface. At the top, the 'certify' logo is on the left, and navigation links for 'My Certify Wallet', 'Kelly Employee', 'My Account', 'Support', and 'Logout' are on the right. Below this, a secondary navigation bar includes 'Home', 'Travel', 'Wallet', and 'Analytics'. The main content area is divided into several sections: 'My Certify Wallet' (showing a list of transactions with a '6 MORE ITEMS' link), 'My Expense Reports' (featuring a 'New Expense Report' button and a list of report statuses), 'Add Receipts' (with options for MOBILE, EMAIL, and UPLOAD), 'Schedule Expense Reports' (noting that ReportExecutive is off), 'What's New In Certify' (with a link to the updates blog), and 'SpendSmart' (displaying no recent ratings).

Within the Wallet, you have several options:

Viewing Receipts - View a specific receipt image by clicking the view (document) icon next in the Receipt column.

Changing a Name - Change the name of an item by clicking the edit (pencil) icon next to the **Merge** button, entering the new name in the field provided, and clicking the save (disk) icon to save your changes.

Deleting an Item- Delete an item by selecting the receipt or expense, and click **Delete** at the bottom.

Please note: If an item is deleted, it cannot be recovered.

Please Note: The Certify Administrator at your organization may make imported credit card expenses read-only, meaning that you will not be able to edit or delete them. To make changes to read-only expenses, contact your company's Certify Administrator.

Edit Details - To make edits to the actual details, such as Vendor Name, Date, or Expense Category, open the little arrow in the Category/Details button to show the individual edit button.

The screenshot shows the 'My Certify Wallet' page for a user named 'Kelly Employee'. The page has a navigation bar with 'Home', 'Travel', 'Wallet', and 'Analytics'. Below the navigation bar, there's a 'Merge Items' toggle and three icons (document, list, refresh). The main content is a table with columns: Source, Receipt, Date, Category/Details, Vendor, Description, and Amount. The table contains five rows of expense data. Annotations include a green box around the first column's checkboxes, a green circle around the 'Add to Report' button, and a green circle around the 'Delete' button.

Using Merge Items in the Certify Wallet

Merge Items gives you the choice to view **Receipts** and **Expenses** combined in your **My Certify Wallet**.

This is helpful if you have imported credit card expenses enabled for your account. Using **Merge Items**, you can add a merged receipt and expense line to a draft expense report without having to manually combine them.

This article shows you how to use the **Merge Items** feature in your **My Certify Wallet**.

Step 1: On your account homepage, under **My Certify Wallet**, select **More Items**.

The screenshot displays the Certify Wallet interface. At the top, the Certify logo is on the left, and navigation links for 'My Certify Wallet', 'Ellie Employee', 'My Account', 'Support', and 'Logout' are on the right. Below this, a secondary navigation bar includes 'Home', 'Travel', 'Wallet', and 'Analytics'. The main content area is divided into several sections:

- My Certify Wallet:** A table listing transactions:

Date	Description	Amount
6/12/17	Mileage	\$57.03
6/9/17	Aurora	\$11.12
6/8/17	USPS	\$122.35
Cash Advance Balance		\$0.00
Prepaid Expenses		\$0.00

 A button labeled '7 MORE ITEMS' is at the bottom.
- My Expense Reports:** Features a 'New Expense Report' button and a list of report statuses: Drafts (1), Pending Approval (14), Pending Payment (5), and Archived (20).
- NPI Expense Analysis:** Includes a link for 'NPI Expense Data'.
- What's New In Certify:** Contains a link to 'Read the Certify Updates Blog'.
- SpendSmart™:** A section stating 'There are no recent ratings to display' with a link to 'Ratings & Reviews'.
- Add Receipts:** Offers three methods: MOBILE, EMAIL, and UPLOAD, with a 'MORE METHODS' link below.
- Scheduled Expense Reports:** Announces that 'ReportExecutive™ is on' with the next build day being 'Sunday, July 2, 2017' and a 'CONFIGURE ReportExecutive™' link.

Step 2: In your **My Certify Wallet**, locate **Merge Items** in the upper right-hand corner. When **Merge Items** is OFF, the **Merge Items** feature is gray, and **Receipt** images are separated from **Expenses** and display in different sections.

When reviewing receipts, you may find it easier to keep **Merge Items** OFF. Receipts and imported credit card expenses then appear separately in your **My Certify Wallet**, instead of combined.

Editing Receipts & Expenses in the Wallet

The **Certify Wallet** is where all receipts and expenses are stored before being added to an expense report. Details are presented from manual entry, or Certify OCR ReceiptParse technology.

Occasionally, you may need to edit item details in your Wallet if they are incorrect. This article shows you how to edit items within the **Certify Wallet**.

Please Note: Your organization may restrict imported credit card expenses as read-only, and those expenses may not be able to be changed.

Step 1: On your account homepage, select **More Items** under **My Certify Wallet**.

The screenshot shows the Certify Wallet interface. At the top, there's a header with the Certify logo, user name 'Meredith Employee', and navigation links like 'My Account', 'Support', and 'Logout'. Below the header, there are tabs for 'Home', 'Travel', 'Wallet', and 'Analytics'. The main content area is divided into several sections. The 'My Certify Wallet' section on the left contains a table with three rows of expense data. The first row shows a date of 3/27/17, a location of DoubleTree Hotel, and an amount of \$560.53. The second row shows the same date and location with an amount of \$485.38. The third row shows the same date and location with an amount of \$68.80. Below the table, there is a link that says '10 MORE ITEMS', which is circled in green. To the right of the 'My Certify Wallet' section is the 'My Expense Reports' section, which includes a 'New Expense Report' button and a list of report statuses: Drafts (1), Pending Approval (0), Pending Payment (0), and Archived (37). Further right is the 'What's New In Certify' section with a link to 'Read the Certify Updates Blog'. Below the 'My Certify Wallet' section is the 'Add Receipts' section, which has icons for 'MOBILE', 'EMAIL', and 'UPLOAD', and a link for 'MORE METHODS'. To the right of the 'Add Receipts' section is the 'Schedule Expense Reports' section, which features a cartoon character icon and text about 'ReportExecutive™' being off.

Recovering Credit Card Expenses

If you use a **Small Business Credit Card** or a **Personal Card** with your Certify account, the **Finicity Support Tool** offers a quick and easy way for you to recover credit card expenses not imported into your **Certify Wallet**. This article shows you how to import missing credit card transactions to your **Certify Wallet** using the **Finicity Support Tool**.

Step 1: On your Certify account homepage, open your **Certify Wallet** by clicking **More Items**.

The screenshot shows the Certify Wallet dashboard. At the top, there's a header with the Certify logo, a user dropdown (Ellie Employee), and links for My Account, Support, and Logout. Below the header is a navigation bar with Home, Travel, Wallet, and Analytics. The main content area is divided into four sections:

- My Certify Wallet:** A list of recent transactions:

7/2/17	Big Sky Bread C...	\$7.45
6/30/17	ROSEMONT MA...	\$9.14
6/30/17	Big Sky Bread	\$7.45

 A link for "8 MORE ITEMS" is at the bottom.
- My Expense Reports:** A section with a "New Expense Report" button and a list of report statuses:

Step 2: On your Certify Wallet page, click Get Card Transactions.

The screenshot shows the Certify Wallet page with a list of receipts and expenses. The top navigation bar is the same as the previous screenshot. The main content area is divided into two sections:

Transactions for Review includes missing, non-imported transactions flagged as potential policy violations.

Other Transactions includes all other missing transactions without potential policy violations, and also lists any unprocessed imported transactions that reside in **My Certify Wallet** or in an expense report.

The **Status** column indicates:

- **ER** – The transaction is an existing Expense Report.
- **Missing** – The credit card transaction has not been imported to Certify.
- **Wallet** – The credit card transaction is in your **Certify Wallet**.

The transaction(s) are then added to the **Expenses** section of your **My Certify Wallet**.

Mileage Expenses

Certify allows you to enter mileage for a personal vehicle driven for company business. The IRS sets annual allowable rates for standard business mileage as well as moving expenses and charitable work. Your company may also set additional custom rates and date ranges for other types of mileage reimbursements. This article shows you how to create a one-way or segmented mileage expense using the **Add Expense** function within an existing draft expense report.

Multiple Currencies

Certify provides a currency conversion feature that allows you to report expenses in a foreign currency and have the expense amounts converted to your default currency. This article shows you how to report expenses in foreign currency.

Certify pulls the FOREX data from SIX Financial, the Swiss operator of Europe's most important independent financial exchange. SIX compiles foreign exchange rates sourced from banks worldwide.

Please Note: To enable multiple currencies for your account, please see our [Configuring Multiple Currencies](#) article.

Step 1: On your account homepage, under **My Expense Reports**, select **Drafts**.

The screenshot shows the Certify account homepage. The top navigation bar includes 'My Certify Wallet', 'Meredith Employee', 'My Account', 'Support', and 'Logout'. The main navigation bar has 'Home', 'Travel', 'Wallet', and 'Analytics'. The 'My Expense Reports' section is highlighted with a green circle around the 'Drafts' link. Below this, there are sections for 'Add Receipts' (Mobile, Email, Upload) and 'Schedule Expense Reports' (ReportExecutive™ is off).

My Expense Reports Box

Expense Report Status

After an expense report is submitted, it must go through an approval workflow before it can be processed and reimbursed.

There are four expense report status types:

Draft: A report that has not yet been submitted for approval

Pending Approval: A report that has been submitted and is waiting for approver actions

Pending Payment: A report that has been approved and fully processed, but reimbursement has not yet been received

My Expense Reports Box

Archived: A report that has been approved, processed, and reimbursed, that has been moved to the **Archived** folder for permanent storage

These categories reflect the flow of the expense report process in Certify. An expense report that is currently being created, or that is completed but not yet submitted, is in **Draft** status. Once it has been submitted, the status changes to **Pending Approval**. When the report is processed and you are awaiting reimbursement, the report status changes to **Pending Payment**. When you have received a reimbursement for an expense report, you are prompted to mark the report as paid, and the report is then **Archived**.

***Please Note:** From time to time, an expense report you submitted may have been approved and processed with a disapproved expense line. When this happens, you may access the processed expense report and copy the disapproved receipt and save it to your Certify Wallet. To do so, select **Pending Payment**, then the **Name** of expense report you want to access. On the disapproved expense line, click the red (plus) icon. A popup window will be displayed, asking you to confirm receipt copy creation; click **Yes** to continue.*
